

Refugee Support Contribution From

More than two-thirds of the refugees living in the cities and countryside of Jordan and Lebanon are living below the poverty line. Some are barely staying alive on as little as \$1.50 (USD) per day. I would like to help raise one of these families out of destitution.

In addition to my regular financial support of the meeting I will contribute the following amount toward this effort of Gwynedd Friends Meeting to support the Lifeline program of the UNHCR (United Nations High Commission for Refugees):
