Saturday, October 8, 2005 EVE GOLDBERG sings music that feeds the soul. Eve's clear, expressive voice will pull you in, whether she's singing a capella or accompanying herself on fingerstyle or flatpicked guitar. Her music is an appealing blend of the many styles that have deeply influenced her, including folk, blues, bluegrass, swing, jazz, old-time, gospel and more, a mixture of her own songs, songs by other writers, and traditional material. Eve's music is about the everyday lives of ordinary people - their joys, hopes, struggles and triumphs.
